ut paste 2/- bottle.

SOCIAL AND WELFARE ASSOCIATION

This Association has spread its activities considerably over recent years and provides an outlet for the sale of shells, native weapons, coral and novelties.

Apart from this the association sponsors the various sporting activities on the settlement.

Football, Boxing and Basketball are the main attractions but swimming and other aquatic sports are also popular.

The annual show is the biggest event of the year and this two day function always arouses great interest. The event corresponds very closely to the exhibitions staged in the main-land towns and exhibits of cookery, needlework, flowers, vegetable novelties etc. are competitively shown and in addition the various sections of settlement work produce a display.

At last years Show manual training, Home training and Domestic Science and Baby Welfare sections put on a very attractive display and the school too had a number of interesting items.
