The ring events with the Cattle were the attraction for the farmers and the Station owners. Among the Cattle which paraded were the Brahma, also known as the Zebu, which was of a cream-grey colouring. The Santa Gertrude who were dark brown red in colour were also on parade. The Champion Cow of the Show was the Jersey which was entered by the Stuart Jail Farm in the Cattle competition. The most exciting event at the Show was the Wood-Chopping Competition for the Men. The contestants were all physically fit and prepared for the strenuous event. Although the men were dressed in long trousers and singlets they chopped away furiously at the huge logs, at top speed. All spectators were anxiously cheering the winner, while the runner-up was only a few seconds behind him. It's always interesting to see how fast men can chop wood!!

The trip over to Townsville on Hayles proved enjoyable for some and for others, who are not used to early morning seas quite unpleasant because of sea-sickness. The return trip was much quicker although cold. Most of the travellers slept coming home.

On the whole the people I'm sure had an enjoyable time at the Townsville Show.

BOXING RESULTS, & NOTES.

The Boxing Tournament staged on Saturday night the 3rd of July was conducted very well.

All Boxers showed fit form and this was the result of good regular training. It was unfortunate that Colin Gibson was unable to fight owing to a bad leg.
