

How does a helicopter remain aloft... how does it ~~change~~ change direction... what enables it to hover at any point of its operating height? ... and how reliable is this remarkable machine? Questions like these, and dozens of others, are constantly asked by people as they see a helicopter whirling across the sky, or as they enjoy a "chopper" ride.

by Mr. A.W. Trembath.

FOR FOOTBALL FANS ONLY!

Very shortly you shall be able to see your favourite game of Rugby League played each Saturday afternoon at the Football ground.

However, at the moment, there is only one vital thing missing:-

PLAYERS!!!!!!

We are desperately short of players!

It is hoped to establish 6 teams-

3 Junior and 3 Senior-to play each Saturday afternoon to a capacity crowd.

If you are interested in playing each week and would like to play a "scratch" match tomorrow (Saturday) afternoon, then it would be appreciated if you could report, dressed to play, to football field at the following times:-

Junior: 1.30 p.m.

Senior: 2.30 p.m.

A "scratch" match will be played in each division if there are enough players to field two teams in each.

SO;- Bring all your mates and have a game this Saturday.

If you are too small, too big, too old, too fat, too thin, too tired, too lazy or too busy, then come along and watch anyway.

---ooo0ooo---

THANKS.

Mr. H. Johnson and Mrs. T. MacAvoy desire to thank all those who offered kind condolences during their recent sad loss.
