

Scout Committee - continued:

meeting for this purpose will take place next Tuesday evening.

So please come along with your sons next Tuesday night and bring along anyone else who is interested in helping our boys to make a success of their scout training.

The Scout Master will explain to you at that meeting the objects of such a committee and how you can be a power of strength to the boys and their organisation in general.

It is the desire of the organisation to extend its activities, and ways and means how this may be done will also be discussed at this meeting.

Young men who have been associated with the movement when they were boys are especially invited to come along on Tuesday night next. Your experience as a scout may be very helpful to the Committee.

-----

#### BASKET BALL

The local court at the school is again in good playing condition and it is hoped some of the young women living in the camps will come forward and play a match against the dormitory girls who have been training hard the past week or so.

Miss Ellen Anderson who is secretary of the Women's Sports Committee and Miss Annie Sailor, their Executive Representative will be happy to receive the names of any women who want to take part in such a match.

-----

Do not try to pass for more than you are worth; if you do your duty, your good qualities of head and heart will be discovered and appreciated.
