

BOXING

A team of six boxers from Palm Island went to Brandon last week-end to compete in a tournament held there.

Three of the team were matched and gave a good account of themselves.

The team left Palm Island on the Kiru on Saturday morning and went down by car to Brandon.

The results of the matches in which Palm Island boys were engaged are as under.

Willie Burton Palm Island fought J. Payne of Macnade.

J. Payne is a rugged fighter and will be remembered as the lad who fought Percy Bluebob during the tournament at Show time. The two boxers put on a very good fight and it was anybody's fight until the third round when Payne's condition proved too good. J. Payne won on points.

Alan Nugent Palm Island was matched with Rod Greenwood of Townsville N.F.C.

Rod Greenwood was determined to retrieve his defeat at Alan's hands on the night of the Show tournament and fought extremely well.

The decision was a close one to give Rod Greenwood the decision on points.

Colin Gibson Palm Island fought K. Knuth of N.F.C. This bout proved one of the best of the evening and it was unfortunate that Colin cut his eyebrow and had to retire in the third round.

The first round was very fast and Colin scored well with left and rights to the ribs. His opponent had the advantage of reach and was prepared to box Colin off. However Colin kept taking the fight to Knuth and did well in the second round. The third round opened well but unfortunately it was in this round that Colin received his eye injury and the fight went to K. Knuth.

The President of the Brandon Boxing Club apologised for the non arrival of the opponents for J. Cinnibar, A. Hero and R. Dalton who were not matched.

The boxers returned to Townsville on Sunday morning and arrived back at Palm Island that afternoon. The weather was good to them and no one was seasick.

The flying saucer zoomed in from space and circled the world in search of ! There it was: the French Riviera.

The saucer descended smoothly and came to rest on the beach. A shutter slid back and out stepped a man from Mars.

The Martian took one swift look about him, then strode up to a petrified bystander. "Never mind about your leader," he said.

"Take me to Brigitte Bardot."

And he that doubteth is damned if he eat.
