

YOUTH CLUB NEWS

There is a sight to be seen here every week end that is a familiar scene on most calm water beaches anywhere on the coast, and that is boys peacefully sailing model sailing boats.

However there is one difference, and that is that the boys here made their own. For many Saturday mornings these lads have been working under the watchful eye of Mr. Ellnor, and now three boys, namely Ezra Stanley, Fred Geesu and Bethany Wallace are gaining many hours of enjoyment from their labour.

Shortly they will be joined by some friends who have not yet completed their craft. These lads, Owen Wyles, Willie Wyles, Warren Russ and Vernon Conway are close to the completion of their models and when these are sailing many things will happen. We anticipate having model sailing boat races which should whet the boy's taste for bigger and better things. The Superintendent, Mr. R.H. Bartlam has arranged for a shield to be available to the winner of the races to be scheduled.

Members of the Youth Club are invited to participate in the indoor sports that have been started on this island, they are Badminton (played Monday nights and Sunday afternoons) and Basketball (played Wednesday nights and Saturday mornings).

Turn up fellows and have a lot of fun.

My boss's 11-year-old son hates girls, and it is like pulling teeth to get him to attend dancing class. But one day the boy returned home from the session in an amiable mood. Surprised, his father asked, "How did it go today?"

"Okay," the boy replied.

"I thought you hated it," his father went on. "What made you change your mind?"

"Aw, today they ran out of girls, so me an' Jimmy danced together."
