HYGIENE NOTES

Let's all Help:- Health is a matter of Sharing.

How do you regard your Hygiene Officer - as a sort of Bogy-man, or as a guardian, always ready to protect your Health.

Civilised man, realising the essential importance of Public Health has evolved intricate machinery, and chemicals for its maintenance. Treatment and Hospitalisation for the sick; supervision of all potential dangers to health in food supply; reserch continually directed at defeating disease; special attention for Mothers and Babies and children at school; responsibility for the mentally ill and handicapped. All these important aspects of Public Health are vested in Central Authority.
