

(Editorial, contd.)

the ball, in football, or throw a punch in boxing. It is very important, for the success of your team, that you do be there - so if you say you'll play, keep your word and be punctual!

Worndown!

As a doctor drove up to a house where a family was expecting it's eleventh baby, the wheels of the car nearly ran over a duck.

"Is that your duck out in the yard?" asked the Doctor.

"Yes, that's ours," replied the father, "but it isn't any duck. It's a stork with it's legs worn down!"

Fantome Island Visit.

Once again our band entertained Hospital Patients, when they went across to Fantome Island last Saturday, and brought sunshine into the lives of the people there. After playing a few items the bandsmen were seated and sang a few Island songs, accompanied by Harry Johnson on the accordion, and Lewis Laurence on the guitar. The patients' applause was never-ending. It was remarked that they enjoyed the Island singing more than the band music and that is saying a lot. On these trips the band could perhaps give a few items of Island Songs and with another instrument, such as a mouth organ, and perhaps an accordion or guitar, it would make quite an entertaining feature, well worth hearing. Judging by the applause they received on Saturday, our Island songs are certainly very popular.

The Sisters entertained Mr. and Mrs. Barnett at afternoon tea, while our bandsmen received refreshments set up under a shady tree on the beach.

A grand afternoon was had by everybody.

Girls who keep a man at arm's length are usually pretty careful not to let him get any further away than that!
