

School Sports! - continued:

you lots of other things - such as to be good sports, to be fair in your play and it also helps you to develop strong muscles and have good healthy bodies. It makes you happy and gives your teacher a chance of learning something more about you personally, and above all it creates a friendlier feeling between you and your mates and even towards your teachers. So keep it up, try hard and you will be surprised at your ultimate achievements.

I saw a little girl today catching a ball and the way she caught it made me turn to her teacher and remark what a splendid catch it was. A few weeks ago that same girl would have side-stepped and let the fast ball pass. Today she proudly gets in front of it and catches it.

Well done, she has gained more confidence in herself and developed a keener sense of sight and direction as the result of her practice and training she is having each day.

You can all do the same if you try. Don't be discouraged if you fail at first, try again, and again until you do succeed.

Good luck girls and boys and good sporting.

#### WELFARE MEETING

The regular weekly meeting of the Welfare Association was held on Monday night when Mr. Garrett, President occupied the chair.

The main business under discussion was our own show to be held in July 19th and 20th. Some slight alterations were made to the schedule and the Family exhibit previously competed for will be discontinued.

In its place it is proposed to hold a kind of 'district exhibit' the settlement area being divided into zones or 'districts'; and each such district to arrange and stage its own display. This should appeal to the public and if all will get wholeheartedly behind it, quite an interesting competition should result.
