BASKETBALL NEWS.

Bluejays and Ravens.

Bluejays and Ravens were a well even match. At first the Ravens seem to have had the game in their hands. But, the Blue-jays decided to pull the one way and thus ended up winning the game. The goalies for both teams were quite good. It is good to see Gertie Massey back in the game. Her goaling was, very good despite the fact that she has been off the court for a year or so. This game was interesting to watch. We hope and trust that more interest will be taken in this game by team members and the onlookers.

Primroses and Shadows.

This match was really a successful win for the Primroses. The opposing team was no match for their fast and sure foot-work. Agnes Corporal did much to help the Primroses with her goaling, which was pretty good and for this she must be congratulated. The game was played in a fair and clean manner, which is quite good to see in any kind of sport. Both teams played well and tried their best. Primroses have taken a good lesson and noted all their mistakes from previous games and really brushed themselves with all these mistakes. For this reason alone the match was in their hands. We hope that all the other team members from the different teams competing this year for the shield will take note of Primroses idea. The final scores for the both matches were:-

Bluejays defeated Ravens-31 to 17.

Primroses defeated Shadows-29 to 14.

There was a good audience at the Basketball Match on Tuesday night and this also was pleasing to see. After all the girls need a little encouraging to make them really decide to put their best foot forward. The younger players in the teams are coming along fine. Perhaps they will be the star players in the Basketball field in the years ahead. We like to see all ages playing this sport, especially the younger ones, who are to take a stand in the coming years. We hope that they will have fun competing with all the bigger girls, and that they will get the swing of things in the long run.
