TAKEN BY CROCODILE

Quite a shadow of sadness was experienced here early this week when it became known that Hughie Henry had been the victim of an attack by a crocodile at Mt. St. John's Zoo near Garbutt last Tuesday.

Details of the circumstances that surrounded the attack are not available, but it is known that the victim is in a critical condition at the Townsville hospital.

Latest reports indicate there is a slight improvement in Hughie's condition though he is still in a very serious condition. The staff of "P.I.N" join with the people of Palm Island in their expressions of sympathy to Hughie in his affliction and sincerely hope for a complete and speedy recovery.

Our thoughts also are with his wife and family at this time of anxiety.
