Children can help with the
show work too, and by making small items, gathering
shells etc., they can help to swell the number of
entries to their show.

They can also help by assisting
in the garden and by helping their parents with
their project. Palm Island show is the highlight
of the years functions and this year is the Centen-
ary Year and it is hoped that the New Hall will be
ready for the display of various sections if not
all of them.
