

Ingham Trip continued:

PIN 30 3 51 p.3

It was quite a good clean game and George Watson opened up the score for Palm Island. At half time the score was 8-5 in favour of Palm Island and for the most of the second half our lads were leading until a few minutes before the end of the game, Ingham scored two tries in very quick time but failed to convert the. However this lift was too great and the home team just pipped the visitors in the last couple of minutes, the scores being Palm Island 18 Lifesavers 20.

George Watson and Herbert Tanner played a good game throughout while Harry Johnson also did very well Walter Palm Island played a very good game in the scrums.

Accompanying the team was Tom Anderson - one of the selectors - who is of the opinion that Alf Willis could have used the ball to better advantage, while Jim Stanley did too much kicking instead of passing to his side, and Jimmy Walsh seemed to lack condition. These factors no doubt contributed to the team's defeat.

At the end of play the players and dancers were entertained to tea at the White Rose Cafe before proceeding to Lucinda for the homeward journey.

Though the sea voyage was somewhat rough the boys stood it very well and on arrival at Palm Island we were again greeted by a heavy downpour of rain.

We are indeed grateful to the Life Savers Club for having invited our boys to come to Ingham and desire to thank the Committee and those responsible for the very able way which they catered for the.

A hint was dropped that the Life Savers Football senior and junior team is endeavouring to come to Palm Island later in the season and play a return match on our grounds.
