

Time alone will tell if this enthusiasm is genuine and if by their examples they will be able to not only interest others in the work of their Welfare Association, but get them as enthusiastic as themselves.

If this happens we can readily believe that "Enthusiasm is contagious" and the soon this contagion spreads among our people the sooner greater progress will be achieved by them.

FOOTBALL!

Palm Island v Ingham.

On Sunday last Ingham defeated Palm Island 26-24 in a game which was interesting but not spectacular. The field was waterlogged, which made playing considerations very difficult and all against the visitors type of play.

Ingham won the toss and Palm Island kicked off, but the home team soon had the Island boys defending on their twenty five yard line. From a free kick Fenoglio was successful and Ingham took the lead 2-0.

Palm Island now began to force the play and with a good dribbling rush kicked the ball over Ingham's line for Burke to fall on it and score Johnson converted. Palm Island 5 Ingham 2.

Ingham soon drew level when Fitzpatrick went over in the corner score 5 all. Near half time Fitzpatrick again scored and Fenoglio converted, Ingham now led 10-5. This was the half time score.

Soon after the resumption Simpson with a run from half way went over for Palm Island, but the conversion failed. Ingham led 10-8. For the next fifteen minutes Ingham took complete control of the game, profiting mainly by Palm Island mistakes no less than four tries being scored and one was converted. (continued on opp. page)
