SOCIAL AND WELFARE NOTES!

At the last meeting of the Social and Welfare Assn. much discussion took place on FOOTBALL. While our footballers are anxious for a trip to the mainland it was pointed out by the President that our boys are not yet in condition to warrant a trip.

The performance of any good football team is always backed by good hard physical training. When you are in condition and are able to play football according to the rules, then it will be time to select a true representative team to go out on invitations received from any mainland centres.

So it is up to ALL footballers to team up and 'get cracking' on some hard training. We do not often see a good game of football on Palm, and if you will not train, you cannot play football at its best.

We would like more entries in our Drawing Competition for the "P.I.N." The closing date will be at the end of the current month. To repeat the prizes:- £5 first - £3 second - £2 third. Anyone can win a prize. Why not make sure it's YOU! To ensure that you do - put as many entries as you can NOW! As this is for the cover of our "P.I.N." the size of the drawings required is 6½" x 4".
