

BOXING TROPHY

The Welfare President advised that Mr. Larry Dalhanty of Charters Towers has donated a trophy for the most improved boxer for 1952.

A panel comprising of three judges and three referees is to make a recommendation to the Boxing Committee of the name of the boxer they consider most entitled to receive this trophy.

This information will be passed on to the Executive after which it will be announced in the P.I.N.

Mr. Dalhanty is to be thanked for his kindly thought and generous donation, and this trophy should be stimulus to awaken new and keener interest in this form of sport.

Undoubtedly the weather conditions have not been very favourable to holding boxing tournaments and it may be a few weeks before the ring will be hard enough to permit it being used, but it is sincerely hoped boxers will rally again and keep these fortnightly tournaments functioning.

It would be a severe blow to the prestige of Palm Islanders should this form of sport cease to function on the Island.

Boxers! What about it? It is up to you to see this does not happen here.

CHERBOURG NEWS
