when stationed in the outback.

The whole outing proved a very happy one for all who took part and several suggestions were hinted of returning to Ingham later in the season and meeting our opponents on a good dry field.

PALM ISLAND BROADCAST.

Wednesday night was a big night for Palm Islanders, whether they are living on the Island or scattered over this wide continent of ours.

On this night a nation-wide broadcast was heard of life and conditions on Palm Island. To many who listened to this broadcast it must have brought to mind a feeling of pride to hear their own friends voices, while to many more it unfolded for the first time something of what the public want to know of what goes on at a Government Settlement.

To enable those who had no wireless sets to hear this broadcast the school's wireless was used and the programme was amplified through the public address system. At times the reproduction was quite good though portions did not come through quite so well.

At this broadcast did not come on until 9.45 p.m. a programme of filmstrips and coloured local slides was put through by Mr Krause. Among the pictures shown were "The Teddy Bear's Picnic", an educational filmstrip on the "Useful Match Box" and "Home Life in Australia"

The film slides on the Cherbourg and Woorabinda Shows were also screened and brought back vivid memories to those who had visited either or both of these shows.
