GEORGE BRACKEN.

Many Palm Islanders who know Mr. and Mrs. Arthur Brakenridge, ex Palm Island identities, would be proud to learn that their son George (who is fighting under the professional name of Bracken) is doing well in the music world also.

It is predicted he will achieve fame as a vocalist too. George has made two releases so far and has written and released two of his own compositions.

George who is 24 years old seems keen on Rock and roll which is very popular among the young folk today. George's two new releases are rock 'n' roll numbers "Blue Jean Rock" and "Why Don't You Write".

"We wish you luck in your new venture George!"
